

4th Scottish International Head and Neck Conference -Emergencies in Head and neck surgery
17th Sep 2021 Virtual conference

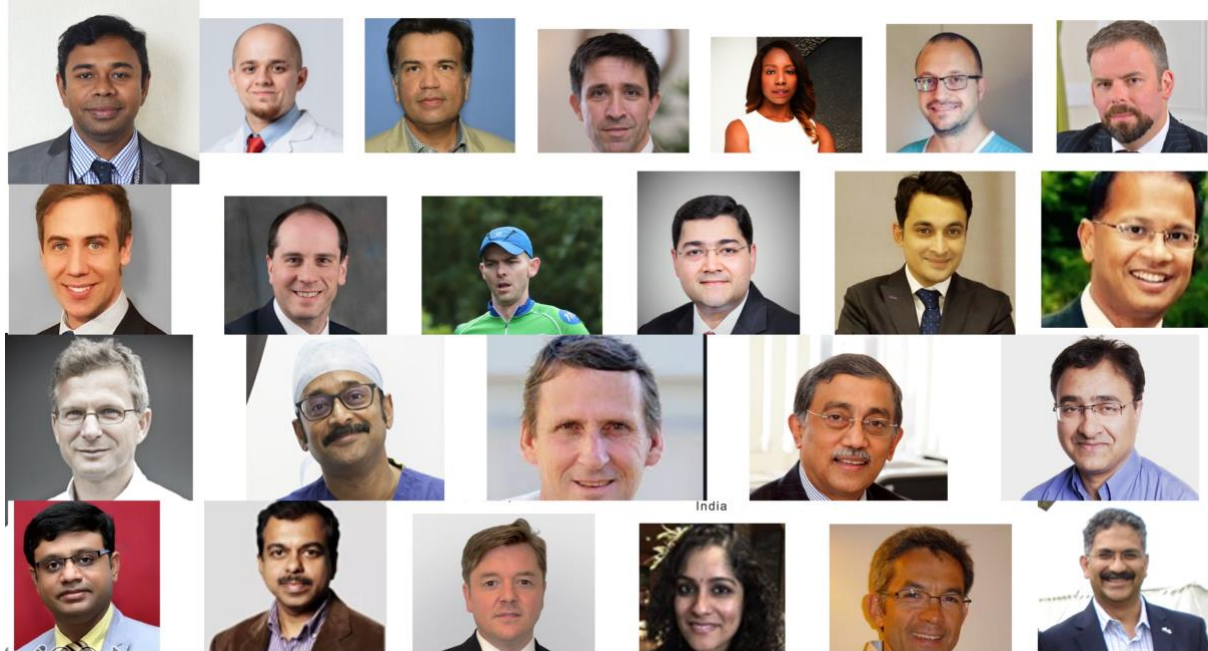

Based on the exceptionally positive feedback from the past three years, I am pleased to announce that we will be hosting another Head and Neck meeting this year. Last year this conference attracted nearly 900 delegates from 83 countries. It has received more than 95% positive feedback in all categories. This unique conference will take place via virtual portal ZOOM this September and will focus on the evidence based management of Emergencies in head and neck surgery within a multidisciplinary team. This conference to be based on the principles of an ‘enquiry-led teaching method’ with pre-determined learning objectives which is unique.

This conference is accredited by Royal college of surgeons Edinburgh and ENTUK (7 CPD).It is endorsed by African Head and neck society.

This event will include didactic lectures, but the majority of the conference will be dedicated to case based panel discussions, creating a unique open forum learning opportunity. It will allow delegates to actively participate in asking questions about the cases and engage in deliberating potential solutions with the panel, consisting of world leading experts in the field. Keynote lectures will be delivered by internationally renowned faculty from multiple specialities.

This conference will be aimed at a broad audience from trainees in the relevant specialities through to consultants in ENT, Maxillofacial, vascular and Plastics.

Please visit www.headandneckconference.co.uk for the programme and registration.

Topics to be covered will include:

Emergencies in Head and neck surgery- Overview	Panel 1. Vascular Emergencies neck /trauma	Keynote lecture 1: Laryngotracheal trauma	Panel 2. Soft tissue infection/ parapharyngeal space Emergency
